

Pass and Seymour Tamper-Resistant Floor Box Assembly - Two Gang for Wood Sub-Floors, Brass Part No. FB2TRDR2B

Tamper-Resistant Floor Box Assembly, Two #8 duplex openings, Four threaded screw plugs. Includes two 3232 15A, 125A tamper-resistant duplex receptacles. Brass. For detailed Tamper-Resistant receptacle information, visit our Tamper-Resistant Receptacles page.

Features & Benefits

Tamper-Resistant shutters let plugs in, keep other things out.	Rugged diecast cover plates with durable nickel or brass finish.
Meets UL514(c) and NEC 314.27(c) requirements including scrub water for tile floors.	Scrub water compliant without caulking, supplied with foam gasket and O-ring-equipped plugs.
Large box flange rests on finished floor no adjustments needed.	Swing brackets mounting, great for tile floors eliminates drilling for mounting screws.

Extra-deep design leaves plenty of wiring room.
