

Wattstopper Digital PIR Corner Mount Sensor, long range Part No. LMPX-100-1

The LMPX-100 Digital PIR Corner Mount Occupancy Sensor uses passive infrared (PIR) technology and one of four lenses to detect occupancy in different types of spaces for energyefficient control of lighting and plug loads. It is a digital sensor, and is part of a Wattstopper Digital Lighting Management (DLM) system.

## Features & Benefits

| Passive infrared sensor with a choice of four coverage patterns | Component of Digital Lighting Management integrated control system                 |
|---|--|
| Quick access to Push n' Learn for system personalization        | Digital sensor with LCD display and programming pushbuttons behind snap-down cover |
| IR transceiver for wireless configuration and remote control    | Compact 2.4"" x 3"" sensor mounts easily on a wall or ceiling                      |
| High density, long range and aisle lenses                       |  |
