

Ortronics Edge Clamp Kit - 45 Degree Part No. P820287H

Clamps are used to junction runway sections together in a variety of configurations. Whether sections are extended in-line or junctioned perpendicularly or are transitioned from horizontal to vertical, clamps provide a solid connection to assure the runway layout will provide the necessary support for your cabling.

Features & Benefits

Clamps are used to junction runway that is the same width where horizontal to vertical transitions are needed: Provides a solid connection to assure runway layout will provide the necessary support for your cabling.
