

Pass and Seymour Series 15 In-Line Connectors Part No. PSM2FBK

150A 600V FMALE CAM TYPE PLUG

Features & Benefits

Thermoplastic elastomer housing for outstanding impact and chemical resistance, as well as an exceptional seal for maintaining NEMA Type 3R and 4 integrity. Non-conductive retaining screw helps to insure no contact with live parts, along with providing stability to the fully assembled product. Heavy-duty brass male and female contacts provide a superior and consistent means of conductivity. Heavy-duty hex set screws allow greater termination torque. Copper wire provides quality strain relief. Copper shim bundles wire strands to reduce "splaying."
