La legrand®

Pass and Seymour Strain Relief Liquid-Tight Grips Part No. STB90100SF

90 deg male liquid tight for metallic flexible conduit. 1-inch npt. 5.25-inch mesh length.

Features & Benefits

Liquid-Tight grips are woven of stainless steel mesh with zinc plated steel or malleable iron bodies and nuts for corrosion resistance.

Each fitting is supplied with an insulated throat to provide conductor insulation and protect against damage by flexing, heat expansion and contraction. They are used to connect liquid-tight flexible conduit to electrical enclosures to prevent conduit pullout.

Liquid-Tight grips are recommended in the wiring of motors and any electrical enclosure where liquid-tight conduit is subject to motion or strain.

Mesh Length: 5.25
